5.3 View, Assign, and Modify Users and Roles

See these sections for details to view, assign, and modify users at the current Study or Site, which you do using the Study Setup module:

- [View Users and Roles at Current Study or Site](#)
- [Assign Users to Current Study or Site](#)
- [Change User Role at Current Study or Site](#)
- [Remove User from Current Study or Site](#)

See these sections for details to create, view, assign, and modify users in the OpenClinica system, across Studies and Sites, which you do using the Administration module:

- [Create a New User](#)
- [View and Modify User Information](#)
- [Remove or Restore User](#)
