10.13.14 Verify the Installation

At this point, Java, Tomcat, PostgreSQL, and OpenClinica are installed and set up. Verify the installation was successful by following these steps:

1. Open a web browser and access OpenClinica at the following URL:

   http://localhost:8080/OpenClinica

   The OpenClinica Log In page should display.

2. Log in to OpenClinica using the default user name, root, and password 12345678. You will be forced to change the password for the user "root" to a secure password. See Update User Profile if you need more information.

3. The user "root" is assigned to a default Study named "Default." Create a user account for youself, with the User Type set to "technical administrator" and the User Role set to Data Manager: for instructions to create the user account, see Create a New User.
