5.2 Loading Data into the Data Mart

For instructions, see [Define Dataset](#) in the OpenClinica User Documentation. Specific notes applicable to the Data Mart are:

- Select all Items in the Study.
- Select all Attributes.
- The dataset name will become part of the name of the schema in the data warehouse.

To perform a single, manual export, see instructions at [Generate and Download Dataset](#) in the OpenClinica User Documentation. Select the Data Mart format. To set up a recurring scheduled job, see instructions at [Scheduled Export Jobs](#) in the OpenClinica User Documentation. Select the Data Mart format.
