

4.5.2 HTML Format

You can download and view a dataset file in HTML format (.html file).

Example of Dataset File in HTML Format (Partial View):

View Dataset ConcomittantMedications2011							
Dataset Name:	ConcomittantMedications2011						
Dataset Description:	All concomittant medications in 2011						
Study Name:	Docetaxel in Patients With Completely Resected NSCLC						
Protocol ID:	R01-123456						
Date:	2012- Feb -01						
Subjects:	6						
Study Event Definitions:	4						
Study Event Definition 2	Initial Treatment						E2
CRF5	Concomittant Medications - v1.0					C5	
CRF8	Agent Administration - v1.0					C8	
CRF9	Agent Administration - v1.0					C9	
CRF10	Concomittant Medications - v1.0					C10	

Study Subject ID	Protocol ID	Date of Birth	Con_Med_Name_E2_C5_1	Con_Med_form_E2_C5_1	Con_Med_Name_E2_C5_2	Con_Med_form_E2_C5_2	PERIOD_SD_E2_C8
CAM101	R01-123456 - 07-07	1970-07-07	aspirin	200	cialis	50	2011-07-06
CAM102	R01-123456 - 05-17	1969-05-17					
CAM103	R01-123456 - 06-13	1959-06-13					2011-07-06

When viewing the HTML file, you can view the metadata for an Item by clicking its column header.

Example of Item Metadata for HTML Dataset File (Partial View):

Item Metadata: Global Attributes							
CRF Name:	Concomittant Medications - v1.0						
Item Name:	Con_Med_Name						
OID:	I_CONCO_CON_MED_NAME						
Description:	Medication name						
Data Type:	text						
PHI:	No						

Item Metadata: CRF Version Level Attributes							
Concomittant Medications - v1.0							
Left Item Text	Right Item Text	Default Value	Response Layout	Response Type	Response Label	Response Options/Response Values	Section Label
Medication name:				text			Concomittant Meds
