

6.5 Manage Rules

You can access all the rules that you have created through the Manage Rules page and make changes any time. You can get to the Manage Rules page by selecting Tasks from the navigation bar, and select Rules menu under the Monitor and Manage Data group. This will prompt the Manage Rules on the study level; that is, it will display all of the available rules pertaining to a study. However, you can also access the Manage Rules page on the item level; that is, accessing each rule individually.

Not valid unless obtained from the OpenClinica document management system on the day of use.

6.5.1 Manage Rules (Study Level)

The Manage Rules page allows you to view and manage the Rules for your Study. The list of Rules is filtered by default to display only Available (active) Rules.

The screenshot displays the 'Manage Rules for Default Study' interface. The table below summarizes the visible rules:

CRF	Item Name	Rule Name	Rule OED	Expression	Execute On	Action Summary	Actions
	31jantlorgan	08FE01	08FE01	I_001AL_31JANTLORDAN eq 31	true false	Type: ShowAction Message: "You selected Other, please specify" Run On: InRialDataEntry, DoubleDataEntry, AdministrativeDataEntry DestinationProperty: I_001AL_31JANTLIFOTHER	[Icons]
	can_phy16	R001	R001	I_NONCA_CAR_PHY15 eq 2 and I_NONCA_CAR_PHY16 eq "test"	true	Type: DiscrepancyNoteAction Message: "this is a test" Run On: InitialDataEntry, DoubleDataEntry, AdministrativeDataEntry	[Icons]
Demographics-Dynamics	demo1	123	123	I_DEMOS_DEMO4 eq 7 and I_DEMOS_DEMO16 ne 7	true	Type: EmailAction To: me@me.com Message: "abc" Run On: InitialDataEntry	[Icons]
	demo16	D0003	D0003	I_PAULS_PO_ITEM3 eq 3	true	Type: DiscrepancyNoteAction Message: "This is eq 1 " Run On: InitialDataEntry, DoubleDataEntry, AdministrativeDataEntry	[Icons]
	demo2	D0002	D0002	I_BASIC_DEMO2 eq "1"	true	Type: DiscrepancyNoteAction Message: "should be eq 0" Run On: InitialDataEntry, DoubleDataEntry, AdministrativeDataEntry	[Icons]

View or Restore Removed Rule(s)

To view and/or restore Rules that have been removed, click the **Show More** link above the table, click in the **Rule Status** column, and click **Removed** from the dropdown list.

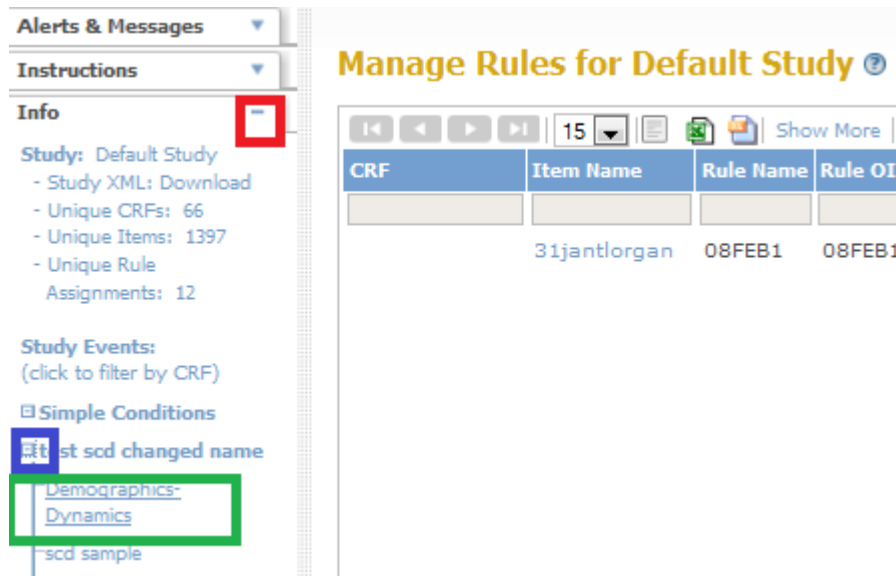

Manage Rules page (Study Level)

The column headers (once **Show More** link is selected) and the cells with detail information in the Manage Rules table:

Column	Description
Run On Schedule	True or False, indicating whether the Rule was created to run at a set time on a daily basis using the RunOnSchedule statement.
Run Time	If Run On Schedule is True, this is the time that the Rule is scheduled to run.
Target	The Target element defined in the RuleAssignment in the XML file.
Study Event	The Study Event affected by the Rule.
CRF	The CRF affected by the Rule.
Version	The version of the CRF affected by the Rule.
Group	The Group Label affected by the Rule.
Item Name	The Item Name affected by the Rule.
Rule Name	The user-defined brief description of the Rule.
Rule OID	The user-provided OID that uniquely identifies the Rule.
Rule Description	The user-provided statement describing the actions the Rule will perform.
Expression	The condition that must be met to trigger the Rule
CRF Validations	Yes or No to indicate whether validation exists for the item in a CRF Template.
Execute On	True or False to indicate whether the Rule should execute if the Expression condition is met (TRUE) or not met (FALSE).
Action Type	The action that the Rule will execute. For example, DiscrepancyNoteAction, EmailAction, NotificationAction, InsertAction, etc.
Action Summary	A summary of the Rule characteristics. This includes the action type prompted if the underlying condition is met, when it is run, and Rule properties. Role-based actions that can be applied to the Rule. These depend on User Role . See Overview section for more details.
Actions	<ul style="list-style-type: none">  View Displays the details of this rule  Run Runs the rule as specified  Remove Removes a Rule assignment so it will not be executed unless it is restored  Restore Restores a Rule assignment that had been removed (must click Show More to display this action)  Download Downloads the XML code for the Rule  Test Opens the Test Rules page and allows you to do basic testing of the Rule

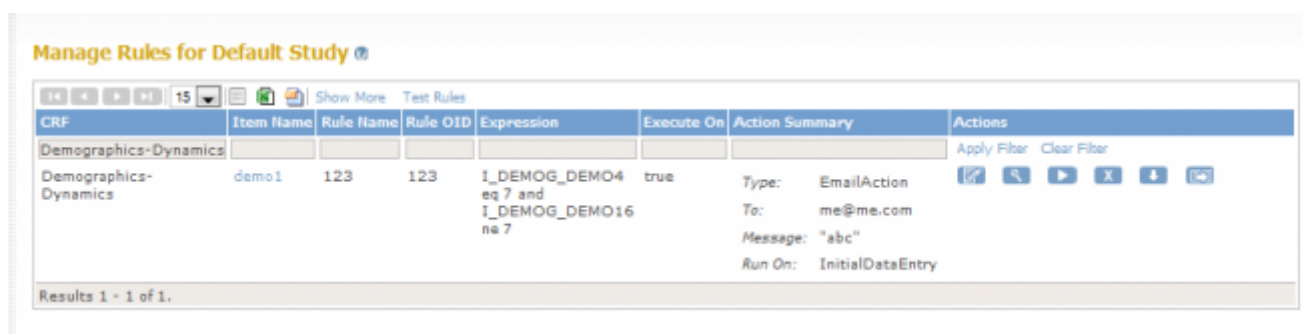

Use the column headers and filter fields (grey boxes) to sort and filter, or filter by Event CRF by

using the tree in the 'Info' panel which is located on the left hand pane (see figure below). By default the table is filtered by Rule Status (Available) and sorted by Item Name.

Filtering Rules Using the Info Pane

1. Locate the Info pane. Verify if it is expanded. If it is not, click on the maximize icon on the right (red box).
2. Click on the expand icon to the left of Study Event you are interested in (blue box)
3. A list of CRFs corresponding to the Study Event is populated in a tree hierarchy. Select the CRF (green box)
4. The Rules are filtered based on the CRF and Study Event you selected (see figure below)

Filter Result

The green arrows at the top of the table allow you to navigate through the pages. If you have fewer than 15 Rules in your study the arrows will be greyed out and only one page will be displayed. With the drop-down menu next to the arrows you can choose how many subjects should be displayed on one page (15, 25, or 50). You will also see a Test Rules link which, when you select it, brings you to the Test Rules page. You may click on the action icons to view, test, execute and manage these rules.

6.5.2 Export Rules

On the Manage Rules on a study level page, you also have an option of downloading/exporting rules in CSV, Excel (for data export) and XML format (for rule file). All of the download/ export icons are located on the Manage Rules in <<Study Name>> header in between the drop down menu of how many subjects to be displayed and the Show More/ Hide link. Refer to the screenshot below.

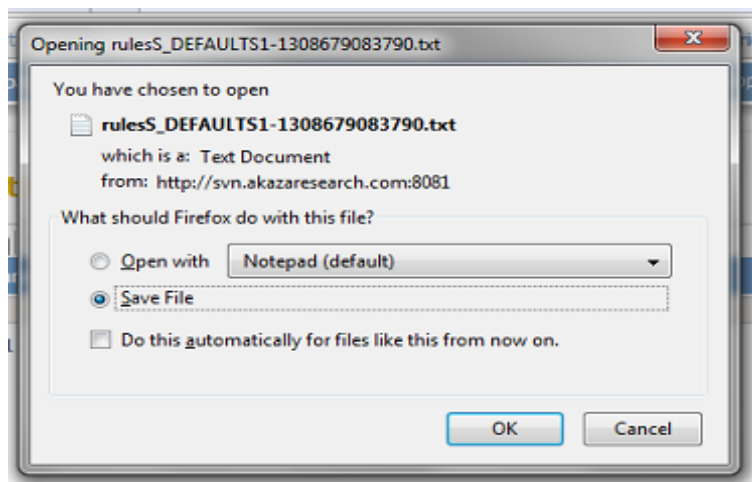

CRF	Item Name	Rule Name	Rule OID	Expression	Execute On
	31jantlorgan	08FEB1	08FEB1	I_001AL_31JANTLORGAN eq 31	true false

Download icons for rules

Left (red box): Exporting Rules in CSV

Middle (blue box): Exporting Rules in Excel format

Right (green box): Downloading the Rules file (in XML)

Download Rule in CSV format. Note that the rule gets saved as a txt file but it could be opened with Excel.

eq 31

Download Rule in XLS format.

en 31

Download Rule in XML Format.

6.5.3 Manage Rules (Item Level)

To view detail information about the available rules for a particular Item select the view icon under the actions column. You will be presented with the Manage Rule for Item [Name] page. On this page you will have specific data about the Item that the rule is targeted for, along with the ability to perform actions on the individual rule by using the Run, Remove or Test icon under the actions column in the Rule table or perform actions on all available rules associated with that particular item.

Manage Rule for Item Page:

1. Target OIDs All the Object identifiers that are needed to create the statement in which the rule will evaluate
2. Study Event Definition - The Study Event Definition which is affected by the Rule
3. CRF Name - Indicates detailed information about the name of the CRF
4. Group Label - This is the Group which is affected by the Rule
5. Item Name - This is a link to the Item Metadata page and also provides information on the Item Metadata CRF Version Level Attributes
6. Actions:

- Run All - Allows you to execute all available rules associated with that particular item
- Remove All - Allows you to remove all available rules associated with that particular item.
- Get XML- This enables you to download in an XML format all available rules associated with that particular item.

The screenshot shows the 'Manage Rules for Item 31jantlorgan' page. At the top, there is a navigation bar with 'Home', 'Subject Matrix', 'Notes & Discrepancies', 'Study Audit Log', and 'Tasks'. A search bar for 'Study Subject ID' is also present. Below the navigation, the page title is 'Manage Rules for Item 31jantlorgan'. A summary table provides details for the item:

Target OID:	I_001AL_31JANTLORGAN
Study Event Definition:	
CRF Name:	
Group Label:	
Item Name:	31jantlorgan (I_001AL_31JANTLORGAN)
Actions:	Run All , Remove All , Get XML , Audit

Below the summary table is a table of rules:

Rule Name	OID	Expression	Status	Execute On	Action Summary	Action
08FEB1	08FEB1	I_001AL_31JANTLORGAN eq 31	available	false	Type: HideAction Message: "" Run On: InitialDataEntry, DoubleDataEntry, AdministrativeDataEntry DestinationProperty: I_001AL_31JANTLIFOTHER	
				true	Type: ShowAction Message: "You selected Other, please specify" Run On: InitialDataEntry, DoubleDataEntry, AdministrativeDataEntry DestinationProperty: I_001AL_31JANTLIFOTHER	

At the bottom left, there is a link: 'Go Back to Manage Rules'.

Manage Rules page (Item Level)

When selecting the *Item Name* link on the Manage Rule for Item page the Item Metadata page is displayed giving you information on Item Metadata Global Attributes and Item Metadata: CRF Version Level Attributes.

Item Metadata: Global Attributes

CRF Name:	001 Alan Multi CRF
Item Name:	31janlorgan
OID:	I_001AL_31JANTLORGAN
Description:	Organ
Data Type:	int
Units:	
PHI:	No

Item Metadata: CRF Version Level Attributes

Click on each CRF version link below to see the corresponding item metadata table.
