

## 6.2.3.1 View User Information

If you want to view complete information about a user in your OpenClinica system:

1. From the Tasks menu, in the Administration module, select Users.  
The Administer Users page opens.
2. For the user whose information you want to view, click the View icon in the Actions column.  
The View User Account page opens; for more about the terms and values, see [About User Information in the Administration Module](#).
