

10.12.16 Verify Access to OpenClinica

At this point, Java, Tomcat, PostgreSQL, and OpenClinica are installed and set up. Restart the system by running:

```
reboot
```

After the system starts up, access OpenClinica at the following URL:

```
http://localhost:8080/OpenClinica
```

The Log In page should display.

To verify your set-up, try to access OpenClinica from another computer by running the same command from that computer, but replace localhost with the server's IP or hostname.
