

7.1 Signing Participant Records

Investigators (a site-level role) and **Data Specialists** (a study-level role) can sign Participant records.

Participant records can be signed at three levels:

- Study Event level
- Participant level
- Bulk (multiple Participants at a time)

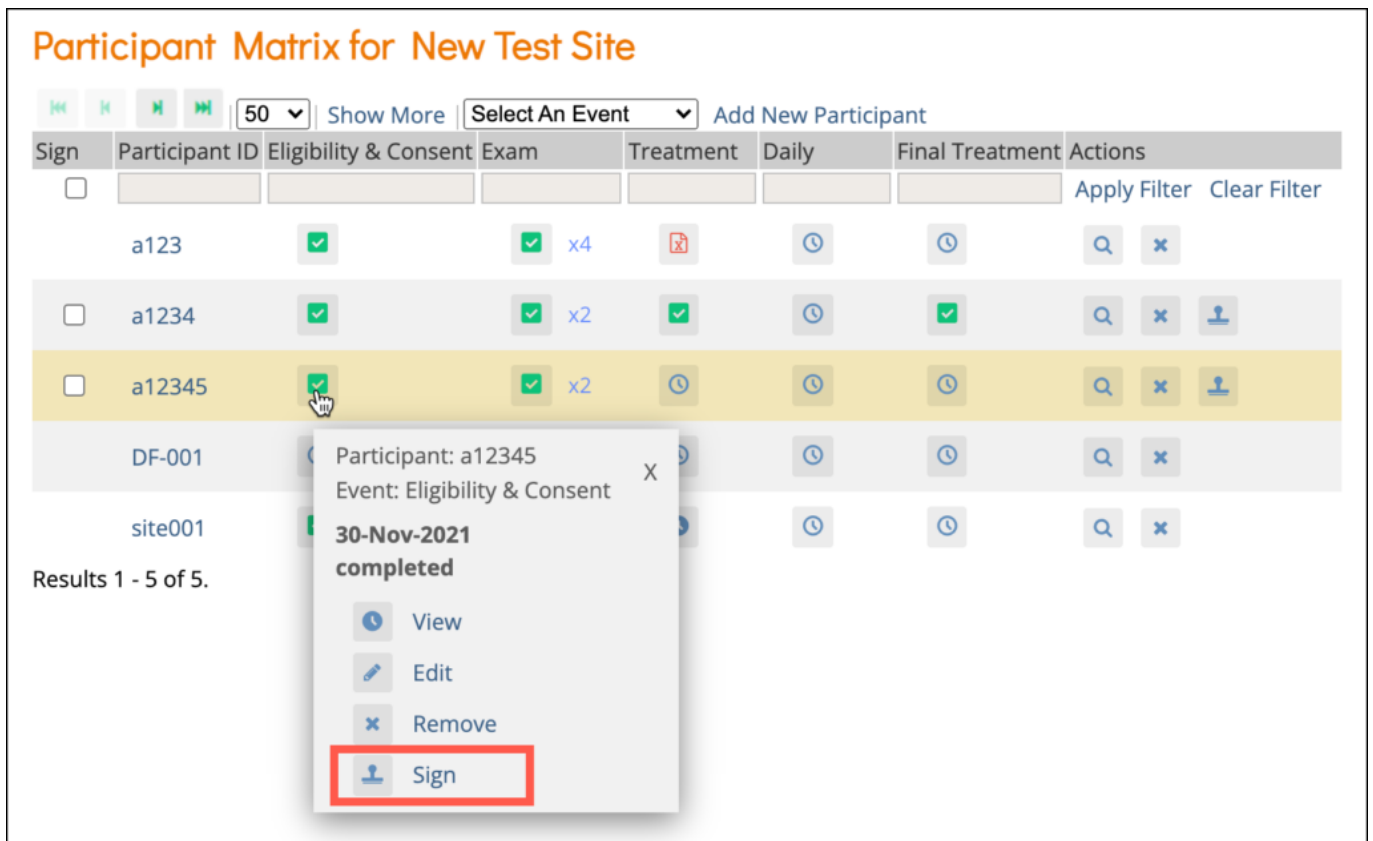

Events are eligible for signature once the following conditions are met:

- All required forms within an event are marked *Complete*
- All non-required forms within an event are either marked *Complete* or *Not Started*
- The Study Events in question are in a "final" state (*Not Scheduled, Complete, Stopped, or Skipped*). It is not possible to sign *Archived* or *Removed* records.

Additionally, Participants are eligible to be signed, individually or in bulk, if all of their events meet the event criteria above.

Sign a Study Event

1. On the **Participant Matrix**, click the **Event** you want to sign.
2. Select **Sign** from the drop-down list (**Sign** only appears if the event is in a final state).

The screenshot shows the 'Participant Matrix for New Test Site' interface. At the top, there are navigation controls including a search bar with '50' and a dropdown menu labeled 'Select An Event'. Below this is a table with columns: Sign, Participant ID, Eligibility & Consent, Exam, Treatment, Daily, Final Treatment, and Actions. The table contains several rows of participant data. The row for participant 'a12345' is highlighted in yellow. A mouse cursor is clicking on the 'Eligibility & Consent' cell for this participant, which has a green checkmark. A context menu is open over this cell, showing options: View, Edit, Remove, and Sign. The 'Sign' option is highlighted with a red box. The context menu also displays the participant ID 'a12345', the event name 'Eligibility & Consent', and the completion date '30-Nov-2021 completed'. The bottom left of the screenshot shows 'Results 1 - 5 of 5.'

Or

1. Click the **View** icon for the participant with an event you want to sign.
2. Locate the **Event** you want to sign, and select **Sign** in the **Actions** drop-down list.

Note: The attestation that appears when signing the Participant Event includes the forms listed above the User's Full Name on the Sign Event screen. The forms available to sign include all forms for the event, except the following:

- Forms the signing user cannot access due to permission tags or the Hidden attribute of the form
- Forms that were started in the event occurrence but are currently Archived or Removed
- Forms in the event occurrence that were never started or have Not Started status

Sign Participant Records for All Events for a Participant

If all Events for a Participant are in a final state (*Not Scheduled, Completed, Stopped, or Skipped*), then the entire Participant record can be signed.

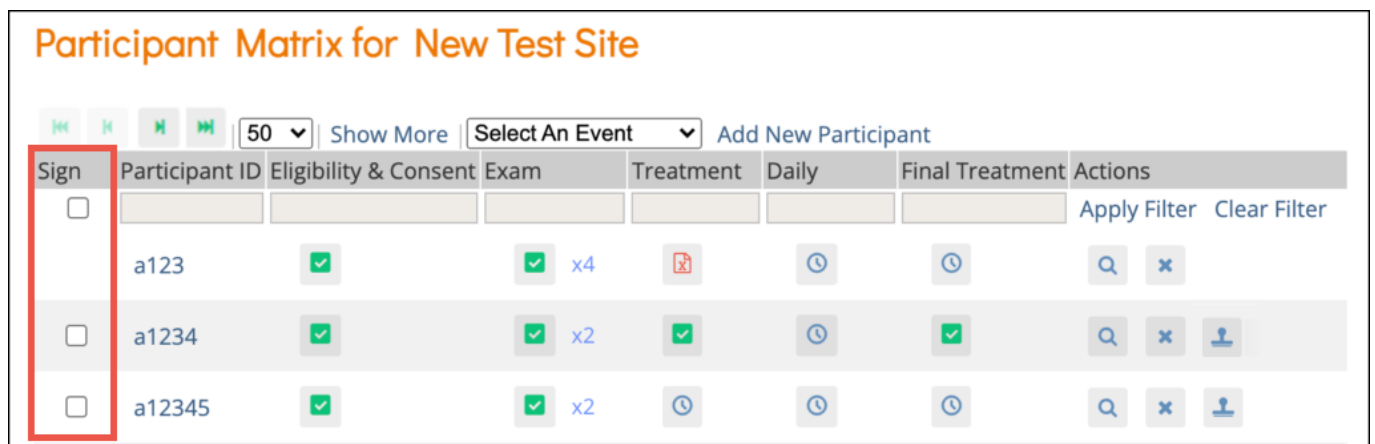

Sign	Participant ID	Eligibility & Consent	Exam	Treatment	Daily	Final Treatment	Actions
<input type="checkbox"/>							Apply Filter Clear Filter
	a123	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> x4	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/>	a1234	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> x2	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/>
<input type="checkbox"/>	a12345	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> x2	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>

To sign for multiple Events for that Participant, click the **Sign** button on the **Participant Matrix**.

Bulk Sign Multiple Participant Records for All Events

When multiple Participants are ready to be signed (all Events for the Participant are in a final state), a checkbox appears in the Sign column in addition to the Sign button which is available in the Actions column. This checkbox allows you to select multiple Participants to sign in bulk.

Sign	Participant ID	Eligibility & Consent	Exam	Treatment	Daily	Final Treatment	Actions
<input type="checkbox"/>							Apply Filter Clear Filter
	a123	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> x4	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/>	a1234	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> x2	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/>	a12345	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> x2	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>

Multiple User Signatures

Multiple users can sign an Event, so even if an Event has already been signed, the **Sign** action will still be available. If there are multiple signatures, all active signatures that have been added since the Event last became signed will display on the Form as well as in the Audit Log.

Unsigned Events

Events are unsigned if:

- A user makes changes to an item on a Form after the Form was signed.
- The Event status was changed from **Completed, Stopped, Skipped** or **Not Scheduled** after being signed. (This also changes the Participant status from **Signed** to **Available** and the

Event Status to **Completed**.)

- A user archives/unarchives the Form, unless the Form had a status of **Not Started**.
- A user removes/restores the Form.

Note: *Changing the version of a Form will only unsign the Form if a user changes data.*
